

Andrew Wheeldon completed a Bachelor of Social Sciences, & Honours degree in Organisational Management, at UCT & a MSc in Sports Management Leicester, UK . currently involved in PhD in Civil Engineering with a focus on the effects of (bicycle) mobility on economic, social & environmental poverty alleviation . a commuting & racing cyclist since 1980 . Director of BEN (Bicycling Empowerment Network) . since 2002 BEN has facilitated the annual importation of bicycles to Cape Town, collected in Aachen & other European cities. "Bicycles connect people and unite us with our beginnings as efficient, productive, ecologically sound individuals. Class, politics, race or religion knows no place on the humble bicycle- we meet as one in the streets of our cities and towns. - I am a facilitator of thinking about the use of the bicycle as a means of transport to address health, poverty alleviation, access to employment and education."
