

Grace Stead

studied Town Planning Architecture . Currently director of Steadfast Greening & icologie (Intelligent Ecological Solutions) promoting energy efficiency, waste reduction, water reduction, event greening, green buildings with a focus on capacity building . 1999-2007 Coordinator of Local Agenda 21 in Cape Town with the main focus being the Cape Town-Aachen Partnership . visited Aachen every year and proud that over 240 persons travelled between Cape Town & Aachen during this time with the partnership. – “The partnership has played an important role in my life, but it is the people behind the scenes that I carry in my heart. I see the projects as the footprints of what the partnership has achieved and I am proud being part of it!”
