

Aachen Climate ticket

Who we are

The Aachen - Cape Town partnership was established in 1999 to promote sustainable development on a local level together with civil society and community organizations in both cities. The so called 'Climate ticket' is one of various projects of this partnership – besides projects in schools, arts, mural paintings and i.e. collaboration between local authorities. With our "Climate ticket" we gather donations from people who want to offset their ecological footprint by supporting garden (or similar) projects.

What are we doing??

We support small urban garden projects in the City and the suburbs of Cape Town. Our aim is to foster and promote the implementation of the Sustainable Development Goals:

How can you apply for funds and support

Please send a short description, what you are planning in your garden community. We support projects with around 1.000 € per year (approx. 18.000 R). When the project is done, we expect a short report about the procedures and a photo via email; so we can inform our donors what happened with their donations.

We are in contact with:

- Ubuhle Bandalo, Khayelitsha
- Moya We Khaya, Khayelitsha
- Masonwabe, Khayelitsha
- Grandmothers against poverty & aids (GAPA), Khayelitsha
